

## Try our new Lick Mats!

Reduce anxiety, boredom,  
and destructive behavior

Lick mats help calm and soothe your pet by helping release endorphins through the promotion of licking, and keeps them entertained for longer

Improve dental health

Lick mats promote healthier teeth, gums, and fresher breath in dogs of all sizes through the licking action, generating saliva and scraping particles and bacteria off your pet's tongue

Multiple patterns for healthy  
treats

Lick mats are used to serve all types of healthy treats on different textured patterns that allow the food to settle to the mat surface, slowing the feeding, reducing the risk of bloating and prolonging enjoyment

Veterinarian and trainer  
recommended

Lick mats were designed by veterinarians to redirect licking habits and aid in reducing crate training time by reinforcing good behavior with long-lasting treats

Environmentally friendly and  
safe

Lick mats are recyclable with no silicone, BPA or PVA, non-toxic, freezer and microwave safe
